

DONCASTER COLLEGE

PROSPECTUS
2026/27

YOUR JOURNEY WITH US STARTS HERE

Welcome and thank you for your interest in Doncaster College. This new prospectus showcases our sector-leading facilities, the support available from our fabulous staff, and the wide range of opportunities, subjects, and levels we deliver.

In January 2025, Ofsted once again recognised us as a good provider and highlighted many key strengths across the breadth of our provision. Learners at the College were seen to grow in confidence, take pride in their excellent levels of achievement, and benefit from highly effective personal development.

We recognise that students will take different routes to reach their personal and professional goals. To enable this, we offer a wide range of study options, including studying on a full-time course, learning whilst working on a high-quality apprenticeship, or heading on to our amazing local Higher Education offer at our university campus provision.

Whatever route you take, we want you to enjoy your time with us and become an active member of our College community.

To maximise your chances of success, we believe that good attendance and punctuality are important and will be essential for you to reach your potential. This is not only important for learning on your course and ensuring the best possible grades, but is also highly valuable preparation for your future working life.

You will all be aware of the importance of gaining maths and English qualifications to a good standard and we will continue to support you to achieve those qualifications if you haven't already done so.

There are many opportunities to get involved in College activities, our community, and to make your voice heard. These include: becoming a Student Governor or Student Rep; taking part in trips; clubs and societies; WorldSkills UK events; internal College leagues; The Duke of Edinburgh's Awards Scheme; and much more.

You can expect us to provide you with great teaching and learning, as well as wider wrap around support to enable you to succeed.

We wish you all the best and look forward to seeing you around the College in the future.

John Rees
CEO and Principal on behalf of the Senior Leadership Team

WITH YOU EVERY STEP OF THE WAY

Wellbeing and Support

In order to give you the best possible chance of reaching your next chosen destination — whether that be the world of work, furthering your career, or progressing into Higher Education — there are other elements of your programme of study that you will need to complete. These include enrichment activities appropriate to your chosen course, such as attending guest speaker events, industry pop-ups, or taking part in visits and tours.

Weekly timetabled Personal Development sessions take place, built around a Scheme of Learning consisting of five core modules

(Safeguarding, Prevent, and British Values; Online Safety; Health and Wellbeing; Money Matters; and Preparing for Work/Further Learning). These sessions are delivered by a specialist team of Personal Development Facilitators and include essential learning about British Values, online safety, equality and diversity, along with student choice sessions, social action projects, and workshops designed to boost your citizenship skills and prepare you to become future-ready.

Additional Learning Support (ALS)

If you need extra learning support or specialist equipment, our ALS team is here to help you reach your full potential.

Careers Advice

We are here to provide our current, past, and potential students with professional, impartial advice and guidance on future careers and how to achieve them.

Counselling

Our team of qualified Counsellors is available if you are ready to work on your emotions and wellbeing in a structured, supportive environment.

English & Maths

If you have not achieved a pass (grade 4 or above) in these at school or elsewhere, you will study them here at College.

Financial Support

All students are encouraged to apply for financial assistance. This can help with transport costs, equipment, trips, and other course-related expenses. Our team is on hand to advise you about the support you may be eligible for — see our website for more information.

International

Our team helps students, including those on an apprenticeship, to study, work, and take part in skills competitions abroad, as well as providing opportunities to participate in Turing Scheme exchanges.

Tutors will advise students about the opportunities available.

Safeguarding

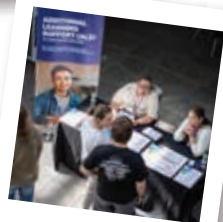

Safeguarding is everyone's responsibility. We have a dedicated team on hand to respond to any identified concerns regarding someone's safety or emotional, physical, or mental wellbeing. Anyone who is worried or has a concern must speak to a member of the Safeguarding Team, who will provide support.

Student Council/ Ambassadors

We provide a variety of activities, events, and support, and encourage you to take an active interest in student life and represent the College.

Wellbeing Intervention Coaches

We provide individual support with many aspects of student life, such as encouraging your attendance and progression, and helping you address any problems or difficulties. Coaches work with students in subject areas, while Wellbeing Centres offer drop-in support and emergency provisions.

Enrichment

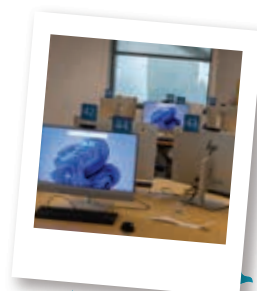

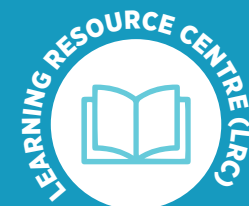

A wide range of group and individual enrichment activities are planned throughout the year, which students are encouraged to join — this includes guest speakers, career-related activities, student finance workshops, escape rooms, charity fundraisers, trips, clubs, societies, and much more.

Equality, Diversity and Inclusion

We are deeply committed to Equality, Diversity, and Inclusion (EDI), ensuring that every student feels respected, valued, and empowered to fulfil their aspirations.

We foster a welcoming environment where individual differences are celebrated, and everyone has equal access to opportunities and support. The safety and wellbeing of our students are at the heart of everything we do.

We take a proactive approach to safeguarding, and our Preventing Sexual Harassment in the Learning Environment Policy provides a clear, robust framework for preventing and addressing any form of harassment. Our staff are trained to uphold these standards, creating a respectful, supportive, and secure space for all members of our College community.

PLAN FOR YOUR FUTURE

“

The Careers Team helped me to realise all my options and I enjoyed talking about the different opportunities that were available to me.

We pride ourselves on offering impartial and unbiased careers education, information, advice, and guidance to help you with your college, course, and career choices.

It is important that you receive careers advice before selecting your course options, so you fully understand how the qualifications you apply for will help you in the future. Getting the right advice will help you make the right choices for you. The Careers team, endorsed with the 'Quality In Careers' and 'Matrix' accreditations, is here for you while you are a student, supporting decisions about next steps into work, apprenticeships, further study, or university.

Everyone is different, so the advice given to one person may not be useful for others (such as friends or family members); therefore, individual careers advice is something you should seek.

During your careers appointment, we will discuss subject entry requirements, the careers you can pursue with your chosen qualifications, and how best to prepare for your transition to and from College.

The team can help you:

- Find out about courses on offer
- Recognise the skills you already have and identify additional skills we can help you to develop
- Create an action plan to help you take your next steps

Contact the team for:

- A one-to-one appointment
- A personalised College tour

WORK EXPERIENCE THAT TAKES YOU PLACES

Work experience is an invaluable opportunity for you to gain an insight into the world of work. We believe that learning takes place both in the classroom or workshop as well as through outside experiences with employers.

All students across every subject area are supported to undertake work experience placements. The placement will focus on developing the

practical and technical skills required for the profession or trade you will be studying.

Our Work Placement Officers will support and assist you in

finding a placement, ensuring you get the most out of your experience. You will have the opportunity to take part in fantastic community projects.

We work with a wide range of employers across various sectors locally and beyond, all of which offer exciting opportunities to work on real projects. Placements in business and industry help you develop the skills and attitudes needed for employment.

In addition, you will take part in employer-led projects, subject-related visits, and guest speaker sessions that bring the workplace into your programme of study.

You also have the chance to take part in international work experience — a fantastic opportunity to develop both your personal and professional skills while experiencing work and life in a whole new culture.

This is why we work with the Turing Scheme to be part of their exchanges, giving

you the opportunity of a lifetime to work abroad with one of our many partner colleges and organisations in the following countries:

Fiji // Finland // France // Germany // Greece // Indonesia // Netherlands // Portugal // Spain // St Lucia // USA // Bali // Belgium // Thailand

The Turing Scheme

This UK government scheme provides funding for international education and training around the world. Students, including those on an apprenticeship, can study, work, and take part in skills competitions abroad.

Our international team will be happy to guide you through the process and the opportunities available.

Ask your tutor when you start, or email international.team@dncolleges.ac.uk

**TURING
SCHEME**

Funded by the UK's global programme to study and work abroad

EMBARK ON YOUR NEXT ADVENTURE

“

The Duke of Edinburgh experience brought me out of my comfort zone in the best way possible. I had lots of fun throughout both days of my expedition as well as the training where I built stronger connections with my friends and learnt how to work well as a team. Overall, I had the best experience ever and it is an experience I won't ever forget!

Layla
Travel and Tourism student

Taking part in the Duke of Edinburgh's Award (DofE) will give you skills, confidence, and something to talk about when you apply for college, university, or a job.

Beyond your academic achievements, universities and employers want to see evidence of the “soft skills” you have developed through extra-curricular activities, such as communication, commitment, leadership, and teamwork. Your DofE Award is a fantastic way to demonstrate and evidence these skills in practice.

Since offering the DofE Award in 2017, over 1,700 students have taken part, with engagement numbers rising each year.

You will complete your award within your college timetable and receive step-by-step support from your course tutors and the DofE team.

You will have the opportunity to

get involved with volunteering, activities such as archery, arrow tag, benchball, and dodgeball, and further develop your soft skills, preparing you for employment.

At the end of the year, you can choose to complete your camping and hiking expedition — the part of the award students most look forward to.

You will learn all the skills needed to prepare for the expedition and receive full support completing other sections of your award from our in-house DofE team. So what are you waiting for? Step outside your comfort zone, meet new friends, and become a new you!

THE DUKE OF
EDINBURGH'S AWARD

KICK-START YOUR SPORTING CAREER

Enhance your academic journey with our Sports Academy at Doncaster College. Here, you'll have the chance to push yourself further than ever before, combining high-quality education with the thrill of competitive sport.

Whether you want to take your game to the next level or simply enjoy playing while studying, the Academy gives you the perfect balance of education and sport.

Led by professionals and qualified coaches, the Academy helps you develop your skills and

sporting ability while gaining an academic or vocational qualification at Doncaster College.

Focusing on football or rugby union, you'll receive top-quality coaching each week and compete in the Association of Colleges (AoC) leagues. Students from all

areas of the College are welcome to join.

If you choose to continue your studies at University Campus Doncaster, you can progress into our 18+ Academy squads and compete in the British Universities & Colleges Sport (BUCS) leagues.

Football Academy

Our Football Academy has gone from strength to strength over the last few seasons under the guidance of our new coaching staff.

Consisting of a competitive AoC men's team (16-18), a competitive AoC women's team (16-18), and a participation team for both men and women (16+), the ethos of the Football Academy is to not only develop your technical skills on the pitch but also to help you grow into a mentally strong and confident young adult off the pitch.

What can you expect from the Academy?

- 2 hours of technical training per week for each team
- 1-hour gym and personal training sessions
- 1-hour analysis sessions following fixtures and training
- Regular competitive fixtures against other colleges in the region and further afield
- Opportunities to appear in College interviews and marketing
- One-to-one support from our extended diploma students, who design bespoke development plans

- Expert staff with experience in elite football and sport
- Nutritional advice and support through TASS
- Opportunities to coach and referee
- Varsity events at the Eco-Power Stadium, home to Doncaster Rovers FC

Rugby Academy

Our Rugby Academy is delivered in partnership with local RFU Championship Club, Doncaster Knights. With aspirations for continued promotion within the AoC and BUCS leagues, the Knights Academy is led by an expert team with professional playing experience, including Doncaster Knights First Team Assistant Coach and Head of Academy Tyson Lewis, and Director of Rugby Development and Pathways Glen Kenworthy.

What can you expect from the Academy?

- 4 days mirroring the Doncaster Knights first team
- Talent pathway opportunities
- Fixtures against academies and professional clubs
- Coaching opportunities
- Nutrition, strength, and conditioning programme
- Medical provision

CORE SKILLS FOR YOUR FUTURE CAREER

We aim to ensure that all our students improve their confidence and competence in English and maths so that you can thrive in your academic or vocational ambitions, as well as in many aspects of your personal life. As such, English and maths are an essential part of your studies here at Doncaster College.

Employers and universities really value these key qualifications, so it is important that we help you achieve them. If you do not have a pass in either or both subjects, do not worry!

As a mandatory part of your programme of study, you will work towards achieving a GCSE grade 9-4 (A*-C) with the support of our specialist tutors, alongside studying your chosen subject with us. If you have a grade 3-1 in either or both subjects, you will be enrolled onto our GCSE programme. If this is not the case, our staff will assess your current level, and you may be

enrolled onto a more suitable Functional Skills programme, which will still teach you the skills needed for everyday life, studies, and employment.

If you have already achieved a grade 4 or above in English and maths, you will continue to develop your skills through the embedding of English and maths in your main curriculum lessons.

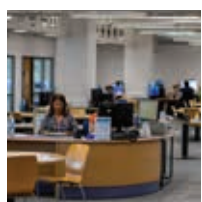

Why Study English & Maths?

These skills can help you manage your finances, communicate effectively, and gain a better understanding of current issues (including politics

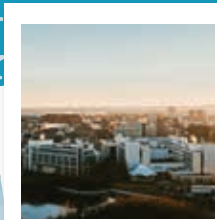

and current affairs), as well as supporting you to excel on your chosen course and in your future career.

Not having these qualifications can sometimes be a real barrier for the future. Most employers and universities look for at least a grade 4 (C) in GCSE English and maths.

People with good GCSE grades in English and maths earn approximately £2,000 more per year than those who do not, highlighting the importance of achieving these qualifications for your future career and financial prospects.

EDUCATION THAT'S LOCAL TO YOU

Doncaster College is easy to get to, however you choose to travel. Our Hub campus is right in the heart of Doncaster city centre, and we offer a free bus service to and from our partner campus at North Lindsey College in Scunthorpe.

Our Campuses

Our main campus, The Hub, is easy to reach, with excellent transport links and within walking distance of the city's shops, cafés, and restaurants. As well as fantastic workspaces, you'll find an on-site restaurant, common room, coffee bar, canteen, Learning Resource Centre (LRC), and much more.

North Lindsey College, part of DN Colleges Group, is our partner college and is where our Music provision is delivered. Located in Scunthorpe, we offer

a free bus service between The Hub and North Lindsey College each day.

Public Transport

Doncaster Transport Interchange and train station offer excellent bus and train routes covering all areas in and around Doncaster; they are only a short walk from our Hub campus. If you are under 21 and meet the criteria, you can apply for a Travel Pass to get cheaper fares on buses, trams, and Northern trains.

For more information and guidance on how to apply, visit

travelsouthyorkshire.com/en-gb/ticketsandpasses/zoom

Car Parking

Although there is no on-site car parking, there are several pay-and-display car parks nearby. The closest is Chappell Drive East, only a two-minute walk away. Some car parks only offer cashless parking via mobile phone, so come prepared.

We also provide disabled parking bays on-site, as well as a drop-off bay if you are being dropped off.

YOUR GUIDE TO LEVELS

All of our programmes are designed to build up your skills, confidence, and knowledge, so you are ready to take the next step whatever it may be.

	ENTRY REQUIREMENTS	EQUIVALENT TO
ENTRY LEVEL	No qualifications needed	Pre-GCSE learning
LEVEL 1	Entry Level Certificate, Award or Diploma	GCSE (grades 3-1 or D-G)
LEVEL 2	GCSEs (grade 3-1 or D-G), Level 1 Certificate, Award or Diploma, NVQ Level 1, Foundation Certificate, Introductory Diploma	GCSE (grades 9-4 or A*-C)
LEVEL 3 / T LEVEL	GCSEs (grade 9-4 or A*-C), NVQ Level 2, BTEC First Diploma, New Diploma-Level 2	A-Levels

NEED SOME GUIDANCE?

YOUR APPLICATION MADE EASY

OPEN EVENTS 25/26

Find out more about our courses as well as general life at Doncaster College by attending one of our open events.

Tuesday 7th October 2025
Thursday 22nd January 2026
Thursday 25th June 2026

Visit our website, social media channels, or scan the QR code for extra events and further information.

1. MAKE YOUR CHOICE(S)

Picking your next step can feel tricky with so many courses to explore. Check our website or prospectus and make a shortlist of subjects that interest you. You can also visit an open event or contact us for advice.

2. APPLY OR ENQUIRE

Found your course? Apply online on our website www.don.ac.uk using the 'Apply/Enrol/Enquire' button or download a PDF form to email to centraladmissions@don.ac.uk. If you're in Year 11, you may also apply through your school.

3. INTERVIEW

You'll get an email invite to meet a tutor from your chosen subject. This is your opportunity to ask questions, discuss your goals, and make sure the course level is right for you.

4. OFFER OF A PLACE

Once we have confirmed that the course is right for you, you will then receive an email with a conditional or unconditional offer to study your chosen subject.

5. TASTER SESSION

Join a summer taster session to get a feel for your course, meet your tutor again, and meet other students.

6. ENROLMENT

If you accept your offer, you'll attend an enrolment day in August and bring any documents to show you meet the conditions of your offer, including exam results if needed.

SCAN THE QR CODE TO FIND OUT MORE

TAKE AN ALTERNATIVE ROUTE

We work with some of the largest employers in the country, who choose DN Colleges Group as their preferred provider of high-quality apprenticeships.

What is an Apprenticeship?

An apprenticeship gives you the opportunity to study and work at the same time. This allows you to earn a wage while gaining qualifications and valuable industry experience.

Unlike most traditional full-time courses, DN Colleges Group offers 'roll-on roll-off' courses, which means you can enrol at various points throughout the academic year.

When can I apply for an Apprenticeship?

You can apply for an apprenticeship at any stage, including:

- When you leave school
- During an existing course if you choose to swap courses
- After leaving college
- As an adult learner later in your career

How do I apply for an Apprenticeship?

You can apply via the UCAS website or the National

Apprenticeship Service website at gov.uk/apply-apprenticeship.

As an apprenticeship is a job with training, it's important to research opportunities carefully and prepare well for interviews with employers.

You can also contact the team using the details on the opposite page to register for the latest vacancies.

How do I find out about Apprenticeship opportunities?

Our team at DN Colleges Group can help you identify the type of apprenticeship you are interested in. We have close links with local employers who require apprentices, and we advertise vacancies on our website as well as the National Apprenticeship Service website. We also keep in touch with individuals we know are interested in apprenticeships to make sure they are aware of upcoming opportunities.

What are the benefits of an Apprenticeship?

- Gain a nationally recognised qualification that can lead to higher education and further study, while improving your career prospects.
- Earn while you

learn — apprentices are paid at least the national minimum apprentice wage, with many employers paying more.

- No student loan — you can complete a higher apprenticeship, including higher qualifications such as a degree, without needing a student loan.
- Develop key work skills such as communication, teamwork, and accountability, fully equipping you for the world of work.
- Progress in your career more quickly and increase your earning potential.
- While on your apprenticeship, you are an employee of the company and entitled to the same benefits as other staff, including holidays.

If you would like more information regarding apprenticeships, please contact the **Apprenticeship Hotline on 0800 358 7979**, email apprenticeshipsupport@dncolleges.ac.uk or scan the QR code.

CONTINUE YOUR STUDIES WITH US

University Campus Doncaster (UCDon), your gateway to a world of learning possibilities.

Offering a diverse selection of courses, from HTQs to degrees and master's programmes, UCDon provides a wide range of subjects to explore. Studying with us allows you to stay closer to home, helping you save on accommodation and travel costs, while giving you the flexibility to balance your studies with work or family commitments. And the best part? You can proudly graduate right here in your hometown.

With two campuses across the City of Doncaster, you'll have everything you need to excel in your studies

and enjoy student life to the fullest. The Hub campus, located in the city centre, hosts the faculties of Business, Creative and Digital Arts, Construction, Engineering, Education, Health, and Life Sciences.

For those passionate about Sport Exercise, Health Science, PE and coaching, our dedicated facilities at the Eco-Power Stadium offer an inspiring environment where you can engage in learning, training, and experience a real-world sporting setting.

Our qualifications are awarded by top regional

universities and national awarding bodies, including the University of Hull, Sheffield Hallam University, University of Huddersfield, and University of Lincoln, as well as Pearson, CMI, CIPD, and CIMA, meaning that your final qualifications hold valuable endorsements sought-after by employers.

No matter where you're coming from or where you aspire to go, UCDon is the launchpad for your future journey, a welcoming and vibrant place where you can create lasting memories while achieving your goals.

We Offer Courses in the Following Subjects:

- Animal Welfare Science
- Business & Management Studies
- Construction
- Counselling & Relationship Studies
- Criminal Justice
- Digital Technologies
- Education & Early Childhood Studies
- Engineering
- Fine Art & Craft
- Game Development
- Graphic Design
- Health & Social Care
- Illustration & Concept Art
- Sport Exercise and Health Science
- Physical Education and Sport Coaching
- Special Educational Needs, Disability and Inclusion (SENDI)
- Teacher Training (Lifelong Learning)

COURSES TO MATCH YOUR AMBITION

On the following pages, you'll find all the subjects we offer at further education level.

We've included average salaries for a range of job roles across our course pages, based on data from Lightcast™, to help you make an informed decision about your future career.

These figures reflect current data, including part-time, full-time, and apprenticeship roles, and are subject to change, so check our website for the

latest information.

If you'd like more guidance on qualifications and career opportunities, speak to our Careers Team, who can advise on the best pathways into employment for you.

For more information about our programmes of study, visit our website at don.ac.uk or scan the QR code on the individual subject area pages.

SCAN
ME!

Step into a world of furry friends, feathered companions, and fascinating creatures! Ignite your passion for the animal care industry at Doncaster College.

Our courses provide the perfect mix of practical experience and knowledge, giving you the skills needed to succeed in a variety of animal care roles, working in our state-of-the-art Animal Centre.

You'll gain hands-on experience with a wide range of species, including alpacas, equines, reindeer, sheep, birds, exotics, and more.

Work alongside experienced tutors and benefit from partnerships with organisations such as Valley Wildlife Park, Yorkshire Wildlife Park, the RSPCA, Vets4Pets, Markham Grange Garden Centre, and Pets at Home. These experiences give you real

insight into the day-to-day work of animal care professionals.

Classroom study covers essential topics such as animal behaviour, welfare, health and safety, and husbandry. You'll also have the chance to take part in two-week placements overseas, gaining valuable international experience.

Our courses develop your technical skills as well as your confidence, teamwork, and problem-solving abilities. By the end of your studies, you'll be ready to progress to higher education, work abroad, or start a fulfilling career in animal care and conservation.

ABI

LEVEL 1
ANIMAL CARE

Learning health and safety, cleaning and handling animals, and working at the farm has helped me prepare for future experiences within animal management.

Nail Services Level 2 & 3

Beauty Therapy Treatments Level 3

If you love making people feel confident and enjoy working in a creative, hands-on environment, a career in beauty could be perfect for you. At Doncaster College, our courses give you the skills and knowledge to succeed in the ever-growing UK beauty industry.

Learn from experienced tutors who provide expert guidance and hands-on training in our commercial salon. You'll practise real treatments on clients, gaining confidence and developing the technical skills employers are looking for. Our courses cover a wide range of areas, including skincare, make-up, nail services, and professional client care.

Beyond the classroom, you'll benefit from workshops, masterclasses, and guest speakers from the industry, keeping you up to date with current trends and techniques. Work experience placements give you the chance to apply your

skills in professional settings and build valuable connections within the sector.

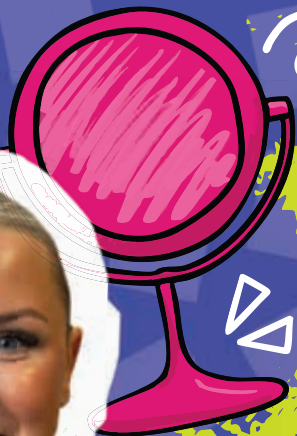

Showcase your talent in competitions such as the National Make-Up Artist Awards, pushing your skills to the next level and boosting your confidence. You'll also develop essential employability skills, including communication, teamwork, and customer service.

By the end of your course, you'll be fully equipped to progress into higher-level training, start your own business, or take on exciting roles in salons, spas, and other professional beauty environments.

Early Years Practitioner Level 2 Diploma

Education & Childcare T Level

A career in education and early years is both rewarding and impactful. At Doncaster College, our courses give you the knowledge, practical skills, and confidence to make a real difference in children's lives.

Our courses offer a licence to practise, opening doors to immediate employment or progression to university. Experienced tutors guide you every step of the way, helping you develop the skills needed to succeed in roles such as early years educator, teaching assistant, or classroom support.

Work placements with local schools and childcare providers give you first-hand experience, helping you understand how settings operate and build your confidence. Guest speakers regularly share their expertise, providing insight into current trends and best practice in the sector.

You'll learn in excellent facilities, including a simulated day nursery, where practical sessions mirror real-world scenarios. The curriculum covers essential topics such as safeguarding, communication, child development, play and learning, health and safety, and CV writing.

By the end of your course, you will have gained practical experience, developed key skills, and built the foundation for a fulfilling career. Doncaster College prepares you to support and inspire young learners, equipping you with the tools to thrive in the education and early years sector.

ENGINEERING

COURSES AT A GLANCE

Mechanical & Electrical (Engineering) Level 1, 2 & T Level

Fabrication & Welding (Engineering) Level 1 & 2

Electrical Installation (Building Services Engineering) Level 1 & 2

SCAN
ME!

If you're fascinated by how things work and enjoy solving problems, a career in engineering could be perfect for you. Engineers design, build, and maintain the technology and infrastructure that shape our world, and a qualification in engineering opens doors to a wide range of exciting careers.

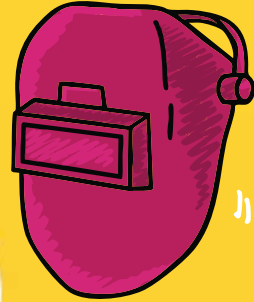

At Doncaster College, you'll gain hands-on experience working on real projects in our state-of-the-art workshops. Our tutors bring industry expertise, guiding you as you develop practical skills and technical knowledge in areas such as mechanical, electrical, and electronic engineering. You will also use advanced tools and equipment, including CAD and CNC machinery, preparing you for the modern workplace.

You'll have the chance to work on practical tasks such as wiring systems, welding, or creating prototypes, putting theory into

practice and building confidence in your abilities. Throughout the year, employer talks and masterclasses provide insight into current industry practices and career pathways.

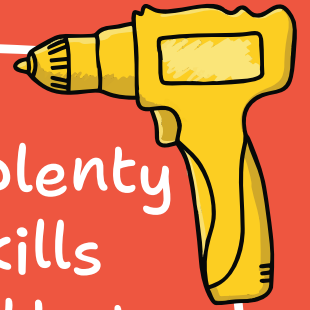

Work placements and project-based learning give you opportunities to connect with local businesses and gain real-world experience. By the end of your course, you'll have developed the technical expertise, problem-solving skills, and confidence needed to progress to higher-level study or launch your career in the engineering sector.

HARRY

**LEVEL 2
ENGINEERING APPRENTICESHIP**

I've developed plenty of practical skills on this course that have helped me at work, especially through hands-on assignments. It's been a good experience so far, and I'm looking forward to progressing to Level 3 and continuing to succeed in my workplace.

MECHANICAL & ELECTRICAL ENGINEERING

Performing Engineering Operations Level 1

1 year // Portfolio building

Units you may study: Working safely in an engineering environment // Carrying out engineering activities efficiently and effectively // Using and communicating technical information // Producing components using hand fitting techniques // Producing components using milling and turning equipment.

Performing Engineering Operations Level 2

1 year // Coursework & practical assessment

Units you may study: Engineering environment awareness // Engineering techniques // Engineering maths // Electrical installation methods // Fitting and assembly techniques.

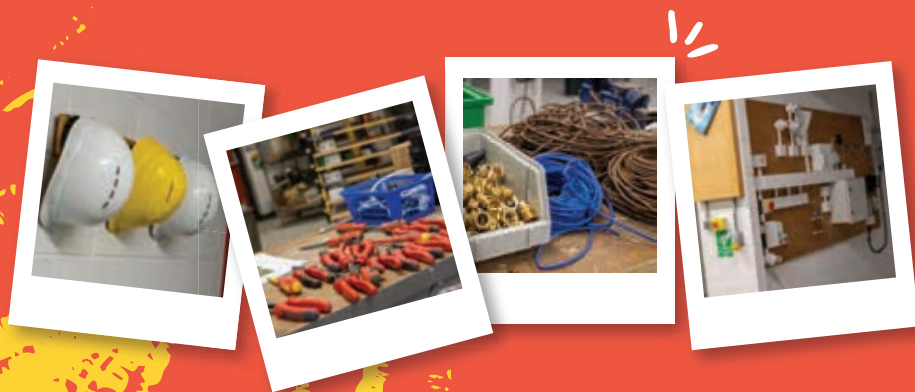

Engineering & Manufacturing (Mechatronics) T Level

2 years // Exam, employer set project, & practical assessment

T-LEVELS
THE NEXT LEVEL QUALIFICATION

Units you may study: Engineering core knowledge // Mathematics and science for engineering and manufacturing // Materials and their properties // Mechanical principles // Quality management // Engineering and manufacturing control systems // Project and programme management // Health and safety principles // Mechatronics.

Progression available to University Campus Doncaster.

FABRICATION & WELDING

Introductory Welding Level 1

1 year // Portfolio building

Units you may study: **Mandatory** Working safely in an engineering environment // Working efficiently and effectively in engineering // Using and communicating technical information. **Optional** Using manual MIG or MAG welding equipment // Using manual metal arc welding equipment.

Welding Techniques Level 2

1 year // Practical assignment, online, & paper-based examinations

Units you may study: **Mandatory** Working in engineering // Principles of engineering // Principles of fabrication and welding technology. **Optional** Welding by manual metal ARC process // Welding by MIG process // Welding by TIG process // Fabricating thick plate.

ELECTRICAL INSTALLATION (BUILDING SERVICES ENGINEERING)

Electrical Installations Level 1

1 year // Coursework & practical assessments

Units you may study: Health and safety // Electrical principles // Installation technology // Communication in the workplace // Electrical installation.

Electrical Installations Level 2

1 year // Coursework, practical assessment, & exam

Units you may study: Health and safety // Electrical principles // Installation technology // Communication in the workplace // Electrical installation.

Spending time in the workshop building my skills and getting shown how to work hands-on with a lot of different tools and equipment, I would recommend it a lot to anyone who wants to learn engineering.

JOSHUA

ESOL

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

COURSES AT A GLANCE

**Full-time Study Programmes for 16-18
year olds: ESOL** Entry 1, 2, 3 & Level 1

Adult Part-time: ESOL Speaking & Listening Pre-Entry,
Entry 1, 2, 3, Level 1 & 2 **ESOL Reading** Pre-Entry, Entry 1 & 2

Functional Skills English for ESOL Learners Entry 3, Level 1 & 2

Functional Skills Maths for ESOL Learners Entry 1, 2, & 3

Step up your English skills with
Doncaster College's ESOL courses,
designed for non-native speakers
who want to communicate
confidently in everyday life in the
UK. You'll develop reading, writing,
speaking, and listening skills,
while improving your grammar,
spelling, and punctuation.

We offer full-time
courses for 16-18-year-
olds, including trips and
work experience, as well
as flexible part-time
options for adults, with
classes available in the
mornings, afternoons,
and evenings. As a full-
time student, you'll gain
hands-on experience
through supported work
placements, helping
you put your language
skills into practice
in real situations.

As part of your learning
journey, you can
participate in the Duke
of Edinburgh's Award,
wellbeing sessions, and
college sports teams.
Educational trips, such
as visits to the Houses

of Parliament, and
events like the ESOL
showcase, provide extra
opportunities to practise
your English and learn
about life in the UK.

Our friendly and
experienced tutors
have over ten years of
teaching experience and
a strong track record of
success. Many students
progress from ESOL
to GCSEs in English,
maths, and biology, or
move on to vocational
courses, boosting your
skills, confidence, and
career prospects.

Completing an ESOL
course gives you the
tools to succeed in
further study, work, or
everyday life in the UK.

ESPORTS

COURSES AT A GLANCE

Esports Level 3

SCAN
ME!

If you love gaming and dream of turning your passion into a career, Doncaster College's Esports course is the perfect starting point. Whether you aim to compete at a professional level, manage teams, produce livestreams, or run gaming events, this course equips you with the skills and confidence to succeed in one of the fastest-growing industries.

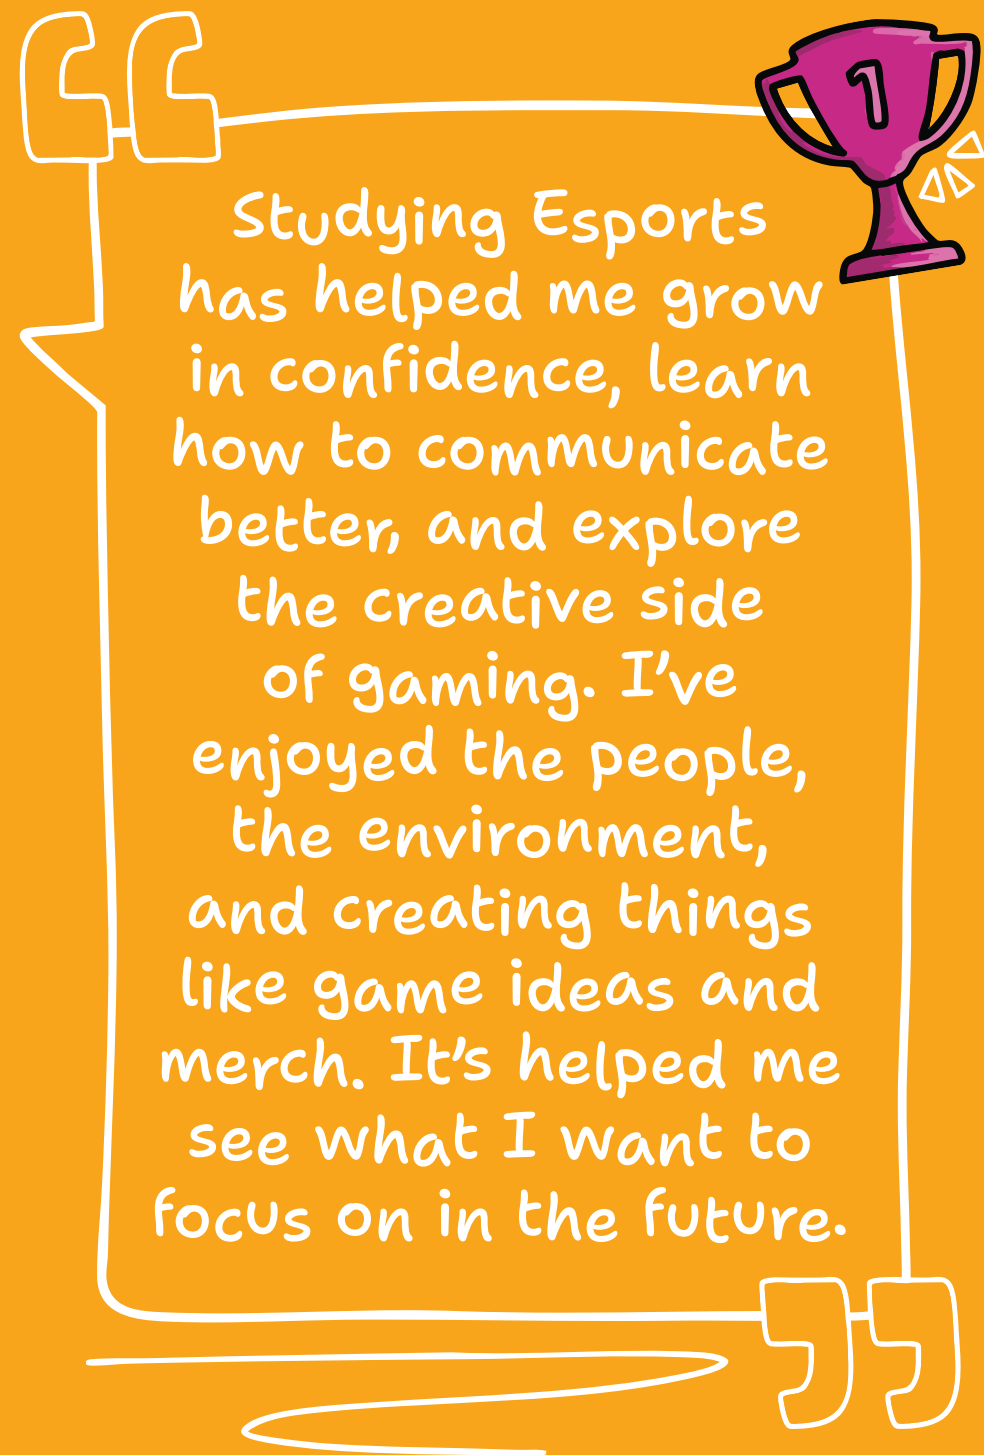

You'll train in our dedicated Esports room, where you'll have access to your own high-spec PC complete with gaming mouse, keyboard, headset, and platforms such as Steam, Epic, and Battle.net. You can play, plan, and train on PC or console using our in-room PlayStation and Xbox, or bring your own equipment for a personalised setup.

The course includes hosting and competing in tournaments, streaming content using OBS, coaching other players, and pitching your own business ideas. Industry-

inspired projects and real-world competitions provide practical experience, blending gaming, media, business, and technology in one exciting curriculum.

You'll also gain valuable work experience and build connections with local gaming businesses. Alongside practical skills, you'll develop teamwork, communication, and leadership abilities, giving your CV a professional edge.

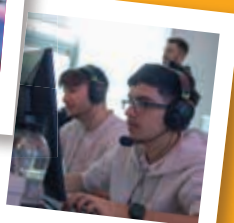

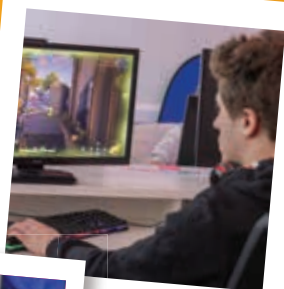

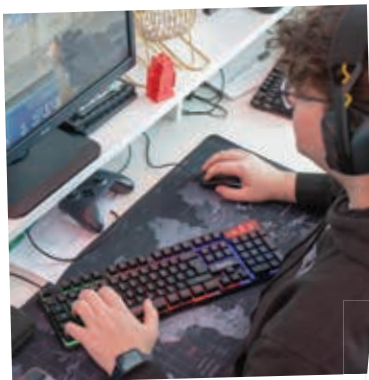

Join a community of like-minded players at Doncaster College and start shaping your future in the Esports industry.

Esports Level 3

1 year // No exams, multiple assignments

Units you may study: **Mandatory** Introduction to global esports // Esports skills // Esports strategy and analysis // Health and wellbeing // Esports events. **Optional** Esports branding // Shoutcasting // Esports coaching.

5 REASONS TO CHOOSE DONCASTER COLLEGE

1

The course is taught in the **brand-new Gaming Hub & Esports suite**, a **£300,000 high-tech facility** with **industry-grade hardware**.

2

A fully vocational, coursework-based qualification; **no exams**, just hands-on assignments.

3

Esports at Doncaster College covers **industry-validated vocational units** including strategy, events, wellbeing, coaching, shoutcasting, and more.

4

An opportunity to **collaborate with like-minded people** who have a shared passion.

5

You'll get chances to **take part in esports tournaments**, building experience that goes straight onto your CV.

FASHION & TEXTILE DESIGN

COURSES AT A GLANCE

Art & Design (Fashion) UAL Level 2 Diploma

If you love creating clothes and expressing your ideas through design, our course is the perfect place to develop your talent. From initial concepts to finished garments, you'll gain the skills to bring your ideas to life and build a portfolio that showcases your creativity.

Your course will cover machine work, garment construction, pattern cutting, design, and styling, helping you understand how to create clothing that is both stylish and commercially viable.

You'll work in modern fashion studios equipped with domestic and industrial machines, with expert technicians and experienced tutors guiding you every step of the way.

You will also have opportunities to connect with industry professionals through talks, Q&A sessions, and collaborative

projects, all of which help you gain insight and experience in the sector.

Competitions with prestigious organisations such as The Royal Opera House and Smiffys allow you to test your skills and gain industry recognition.

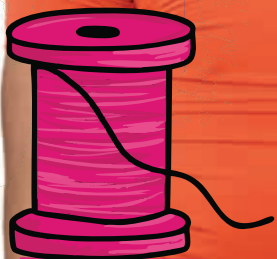

With our strong emphasis on creativity, technical skill, and professional experience, you'll leave Doncaster College ready to take the next step — whether that's university, an apprenticeship, or a career in the fashion industry.

FLORISTRY

COURSES AT A GLANCE

Floristry Level 2

Floristry Level 3

Professional Floristry (Day & Evening Courses) Leisure Course

SCAN
ME!

Step into the world of floristry at Doncaster College, where your creativity blossoms into exciting career opportunities. Whether you dream of working in a flower shop, designing for events, or starting your own business, our courses give you the skills and experience to succeed.

Work with fresh blooms from professional suppliers, learning techniques such as hand-tied bouquets, wedding arrangements, and funeral displays. As a proud member of the British Florist Association (BFA), our courses meet the highest standards, taught by award-winning tutors recognised for their excellence.

In 2025, Doncaster College was selected to create a display at the prestigious RHS Chelsea Flower Show, a rare opportunity that allowed our students to gain first-hand experience at one of the most

renowned events in the industry. One of our tutors also showcased her own display, winning a Silver Gilt award.

Gain practical experience in our commercial flower shop, Flowers at The Hub, where you create arrangements for real customers. Keep up with industry trends through guest speakers and visits to events like the Harrogate Flower Show and BFA FleurEx.

With our strong reputation, top tutors, and hands-on learning, you'll leave prepared to turn your passion for floristry into a rewarding career.

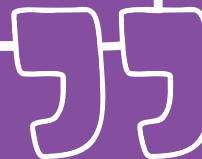

SEELY

**LEVEL 3
FLORISTRY**

I've gained loads of confidence, improved my communication and people skills, and learnt so much about my craft. My tutors have been so supportive, and I've made great friends along the way. I plan to get a job in a florist shop and eventually start my own business.

Floristry Level 2

1 year // Coursework & practical assessments

Units you may study: Introduction to art and design for florists // Identification and processing of cut flower material and pot plants // Introduction to plant processes and planted designs // Hand-tied and presentation designs // Funeral and sympathy designs // Floral arrangements // Wedding designs and accessories // Display of floristry goods // Introduction to working in the floristry industry // Function decorating.

Floristry Level 3

1 year // Coursework & practical assessments

Units you may study: Principles of health and safety // Undertake and review work related experience in the land-based industries // Principles of the creative design process in floristry // Plant and flower care // Tied floral designs // Floral designs in a medium // Wired floral designs // Glued floral designs // Business management and marketing in floristry // Trends in the floristry industry // Event floristry.

Professional Floristry (Day & Evening Courses) Leisure Course

No coursework

What you may study: Each week you will watch a demonstration and then you will be given the opportunity to make your own to take home. You will be fully supported along the way by one of our experienced tutors.

5 REASONS TO CHOOSE DONCASTER COLLEGE

1

Award-winning tutors, experts in commercial practice and competitions, selected to create a display at the RHS Chelsea Flower Show 2025, with one tutor winning a Silver Gilt for her own individual display there.

FOUNDATION LEARNING

COURSES AT A GLANCE

Progression Level 1 Gateway Certificate

Employability Entry Level 2 & Entry Level 3

Project Search Supported Internship

At Doncaster College, our Foundation Learning department provides equal opportunities for 16 to 24-year-olds with learning difficulties and disabilities. We're dedicated to preparing you for adulthood and helping you unlock your full potential by equipping you with essential skills and knowledge.

Our comprehensive programmes focus on independent living, health and wellbeing, community participation, employment, and relevant qualifications.

With guidance from our experienced staff, you'll work towards your personal goals in facilities designed to meet your needs. We offer excellent work experience opportunities through strong connections with local employers, providing valuable practical skills in supportive environments.

Internal work placements within the College also help build independence and employability skills.

Additionally, our renowned supported internship programme, Project Search, in partnership with Amazon in Doncaster, offers further progression options. Our dedicated tutors provide individualised support, focusing on developing your independence and employability skills.

You'll explore various subjects, including first aid and mental health awareness. You'll also complete a number of "extra mile" qualifications alongside your main qualification, such as Makaton.

Our aim is to empower you to progress into mainstream programmes, supported internships, employment,

and independent living. If you have an Education, Health, and Care Plan (EHCP), we create a personalised programme tailored to your needs and aspirations.

You'll participate in all aspects of College life, including the Duke of Edinburgh's Award, using the College gym and Learning Resource Centre, joining the Student Parliament, and engaging in volunteering and work experience opportunities in Doncaster. Competitions, guest speakers, and trips are integrated into the curriculum, providing a well-rounded learning experience.

Note: You do not need an EHCP to join our programmes.

SCAN

MOTOR VEHICLE

COURSES AT A GLANCE

Motor Vehicle Level 1

Light Vehicle Service & Maintenance Principles Level 2

SCAN ME!

Do you dream of working with cars and engines, solving technical problems, and building a career in the motor industry? At Doncaster College, our Motor Vehicle courses give you the skills, knowledge, and hands-on experience to succeed.

You'll work on real cars in our fully equipped training garage, learning practical skills and industry-standard techniques under the guidance of experienced tutors with strong links to the trade. From servicing and repairs to diagnostics and maintenance, you'll gain confidence using professional tools and equipment, preparing you for real-world scenarios.

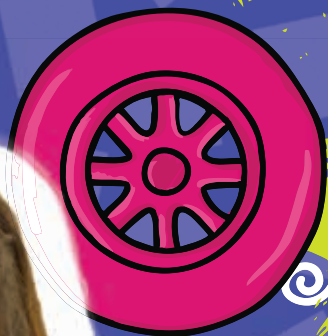

Our courses also include exciting enrichment opportunities, such as a trip to Silverstone, the home of British motorsport, where you can see high-performance engineering in action. Regular masterclasses and guest

talks from industry professionals keep you up to date with the latest trends and innovations, giving you insight into your future career.

With strong employer connections, modern facilities, and expert tutors dedicated to your success, you'll gain practical experience and industry exposure that sets you apart.

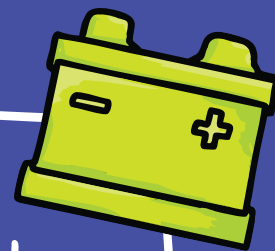

Whether your goal is to work in a dealership, an independent garage, or progress to higher-level qualifications, Doncaster College provides the perfect environment to develop your skills, boost your confidence, and start your career in the fast-paced world of motor engineering.

JADE

**LEVEL 2
MOTOR VEHICLE
(AUTOMOTIVE ENGINEERING)**

I've learnt how to fix minor issues on vehicles and really enjoyed the hands-on learning. I'm applying for Level 3 next. As a mature student, balancing home and college has been tough, but my tutors have been really helpful and supportive.

Motor Vehicle Level 1

1 year // Practical assignment, online, & paper-based examinations

Units you may study: Health and safety // Basic routine vehicle maintenance // Introduction to vehicle technology and workshop processes // Knowledge in inspection, repair, and replacement of lights, tyres, and other components // Understanding different engine systems and manufacturing techniques.

Light Vehicle Service & Maintenance Principles Level 2

1 year // Practical assignment, online, & paper-based examinations

Units you may study: Develop skills to identify customer service needs // Knowledge of materials, fabrication, tools, and measuring devices // Remove and replace engine units and components // Knowledge of light vehicle fuel, ignition, air, and exhaust system units // Remove and fit basic light vehicle maintenance.

MUSIC

COURSES AT A GLANCE

Music Performance & Production UAL Level 2 Diploma

Music Performance & Production UAL Level 3 Diploma

Music Performance & Production UAL Level 3 Extended Diploma

Are you passionate about music and ready to turn your talent into a career? Our music courses help you develop both your performance and technical skills in a supportive and creative environment.

With state-of-the-art facilities and tutors who bring extensive industry experience, you can explore pathways in music production or performance, covering composition, sound recording, mixing, and live performance. You'll gain hands-on experience throughout your course, building practical skills and confidence while working on real projects. Your learning culminates in a major final project, allowing you to showcase your expertise and creativity.

Our courses are delivered at our partner campus, North Lindsey College, with a free and convenient bus service to and from The Hub campus. This ensures you can focus fully on your studies and enjoy

a professional, inspiring musical environment.

Industry connections and work placements provide invaluable experience, helping you develop your CV and network with professionals. Guest speakers, masterclasses, and live performance opportunities give insight into careers in music, from performing and producing to sound engineering.

By combining practical experience, creative development, and industry guidance, these courses equip you with the knowledge, skills, and confidence to launch a successful career in the vibrant music sector.

T LEVELS

COURSES AT A GLANCE

Business Management & Administration T Level

Early Years Education & Childcare T Level

Engineering & Manufacturing (Mechatronics) T Level

Health (Adult Nursing Pathway) T Level

Legal Services T Level

Considering applying for A Levels but want more hands-on experience? A T Level could be perfect for you! T Levels are two-year qualifications, equivalent to three A Levels, designed with employers to ensure what you learn in the classroom matches the skills needed in the workplace.

T Levels combine classroom learning with practical experience through an industry placement of around 315 hours (roughly 45 days). This gives you the chance to apply your knowledge and gain real insight into your chosen career.

- Maths and English support if you haven't already achieved a Grade 4.
- A learning balance of approximately 80% classroom time and 20% industry placement, blending theory with real-world practice.

By completing a T Level, you'll develop the skills, knowledge, and experience to progress into skilled employment, further study, or a higher apprenticeship.

Industry placements are flexible and can be completed as a block, on set days, or a mixture of both. Some placements may involve more than one employer to broaden your experience.

Each T Level includes:

- A technical qualification focused on specialist skills for a specific career.
- A strong emphasis on digital skills, essential in today's job market.
- An industry placement offering hands-on experience.

T Levels offer an exciting mix of learning and real-world experience, giving you the best start toward a successful and rewarding career.

 Please recycle our prospectus after you have finished with it.

To address the environmental impact in producing this prospectus we have printed it on FSC® certified paper which originates from forests that are managed by strict principles and criteria, including maintaining the whole forest ecosystem. It has also been printed by a carbon balanced printing company whose values match our own, helping us to reduce our environmental impact by implementing a carbon capture scheme.

By using carbon balanced paper for our prospectus, we have been able to balance through the World Land Trust the equivalent of **123kg** of carbon dioxide. This support will enable the World Land Trust to protect **24m²** of critically threatened tropical forest.
